

How to make a Pet Bed

You can use a pillow case or make one (any size). Place it near your sewing machine or cutting station and drop scraps of batting or fabric in until filled. Next you will need to stitch the top closed with a couple of rows of stitching. When complete just bring it to a guild meeting and turn it in at the Community Service table. If you choose to deliver it to a pet shelter please let Community Service know how many you have turned in so that it can be recorded in our yearly totals.
